Notes:

- Applications should not 'gap fill' a service that is or should be provided by others (e.g. other Government Department, local authority, existing MOD provision)
- Projects submitted must not generate a profit, top-up an existing Grant-in-Aid or raise funds for the charitable sector
- MOD can only provide one off funding so where there is an ongoing cost – such as maintenance or staff costs, we will look for the non-Service element of the partnership to commit accordingly
- The application is more likely to be successful if the non-Service element of the partnership (e.g. Local Authority, or charity) also commit to incurring expenditure
